

THERE'S DISCUSSION DEBATE AND PARTY

Trindade is a cultural reference, an artistic and gastronomic destination. Its rooms originally decorated with historic panels offer diversity and breadth for all types of events, in a unique and memorable setting.

It is in this room that the main masonic-inspired panels of Cervejaria da Trindade are concentrated. Due to their rarity, being perhaps even unique in terms of international standards, this set of tiles with Masonic symbolism is today considered national heritage.

HISTORICAL BUILDING

Convent from 1294.
